Github https://suneelchatla.github.io

Employment History

2019 – Present **Assistant Professor,** Department of Mathematical Sciences, University of Texas at El Paso, El Paso, TX, USA.

2018 – 2019 **Postdoctoral Researcher**, Institute of Statistics, National Tsing Hua University, Hsinchu, Taiwan (R.O.C).

Education

2014 – 2017 **Ph.D. Institute of Service Science, National Tsing Hua University**, Hsinchu, Taiwan (R.O.C).
Thesis title: *Unconventional regression models for count and binary data*.
Advisor: **Prof. Galit Shmueli**.

2006 – 2008 **M.Sc. Statistics, University of Hyderabad**, Hyderabad, India.

2003 – 2006 **B.Sc. Mathematics, A.P.R.D. College**, Nagarjuna Sagar, Andhra Pradesh, India.

Research Publications

Journal Articles (In Preparation)

1. **S. B. Chatla** and I. Bhattacharya, "Multiple quantile regression for ultrahigh-dimensional longitudinal data," 2026, in preparation.
2. **S. B. Chatla**, C.-T. Lin, and C.-K. Ing, "Adaptive variable selection on high-dimensional non-parametric regression models," 2026, in preparation.
3. N. Mohammadi, P. Kokoszka, and **S. B. Chatla**, "Deep learning two-sample test for time series of functions on a large domain," 2026, in preparation.

Journal Articles Published/ Under Revision

1. K. G. Duodu, **S. B. Chatla**, O. K. Tweneboah, and M. C. Mariani, "Functional regression with the com-poisson distribution," *Journal of Statistical Computation and Simulation*, Revision in progress, 2026+, **MS student lead author*.
2. D. U. Mallanna, I. Das, and **S. B. Chatla**, "Parametric link for com-poisson regression model," *Applied Statistics*, Revision in progress, 2026+, **MS student lead author*.
3. I. Bhattacharya, M. A. N. Bhuiyan, and **S. B. Chatla**, "Automatic variable selection for longitudinal quantile regression with application to alzheimer's disease progression," *Scandinavian Journal of Statistics*, accepted, 2026.
4. L. Ruiqi and **S. B. Chatla**, "A deep learning framework for scalar-on-function models," *NeurIPS*, accepted, 2026.
5. **S. B. Chatla** and I. Bhattacharya, "Estimation and inference of quantile treatment effects in high-dimensional single-index model," *Econometrics and Statistics*, 2025, ISSN: 2452-3062. DOI: https://doi.org/10.1016/j.ecosta.2025.02.003.
6. **S. B. Chatla** and A. Mandal, "Robust variable selection in high-dimensional nonparametric additive model," *Annals of the Institute of Statistical Mathematics*, pp. 1–26, 2025.

7. F. Gelir, **S. B. Chatla**, M. S. Bhuiyan, *et al.*, "Characterizing heterogeneity in alzheimer's disease progression: A semiparametric model," *Scientific Reports*, vol. 15, no. 1, p. 7660, 2025.
8. **S. B. Chatla** and R. Liu, "Inverse regression for spatially distributed functional data," *Bernoulli*, vol. 30, no. 4, pp. 3334–3355, 2024.
9. **S. B. Chatla**, "A new kernel regression approach for robustified L_2 boosting," *Communications in Statistics - Theory and Methods*, vol. 53, no. 22, pp. 8186–8209, 2023.
10. **S. B. Chatla**, "Nonparametric inference for additive models estimated via simplified smooth backfitting," *Annals of the Institute of Statistical Mathematics*, vol. 75, no. 1, pp. 71–97, 2023.
11. Y. M. Tripathi, **S. B. Chatla**, Y.-C. I. Chang, L.-S. Huang, and S. G. S., "A nonlinear correlation measure with applications to gene expression data," *PLOS One*, vol. 17, no. 6:e0270270, 2022.
12. **S. B. Chatla** and G. Shmueli, "A tree-based semi-varying coefficient model for the com-poisson distribution," *Journal of Computational and Graphical Statistics*, vol. 29, no. 4, pp. 827–846, 2020.
13. **S. B. Chatla** and G. Shmueli, "Efficient estimation of com–poisson regression and a generalized additive model," *Computational Statistics & Data Analysis*, vol. 121, pp. 71–88, 2018.
14. **S. B. Chatla** and G. Shmueli, "An extensive examination of regression models with a binary outcome variable," *Journal of the Association for Information Systems*, vol. 18, no. 4, p. 1, 2017.
15. G. Shmueli, S. Ray, J. M. V. Estrada, and **S. B. Chatla**, "The elephant in the room: Predictive performance of pls models," *Journal of Business Research*, vol. 69, no. 10, pp. 4552–4564, 2016.
16. **S. B. Chatla**, S. Kadam, D. Kolluru, S. Sinha, A. Viswandhuni, and A. Vaidya, "Complex networks and soa: Mathematical modelling of granularity-based web service compositions," *Sadhana*, vol. 36, pp. 441–461, 2011.

Book Chapters

1. **S. B. Chatla** and G. Shmueli, "Com-poisson regression model: Application to bike sharing in the united states," in *Data Science for Modeling Managerial and Socioeconomic Problems: Concepts, Techniques, and Applications*, H. Faziz and M. Deep, Eds., Springer Singapore, 2025, ISBN: 978-981-97-9059-3.
2. **S. B. Chatla**, C.-H. Chen, and G. Shmueli, "Selected topics in statistical computing," in *Encyclopedia with Semantic Computing and Robotic Intelligence*, 01, vol. 01, World Scientific, 2017, p. 1 630 013. DOI: 10.1142/S2425038416300135.

Teaching

Fall 2019 – Present
- Statistical Literacy (STAT 1380), Elementary Statistical Methods (STAT 2480), Advanced Scientific Computing (CPS 5320/6320), Probability and Statistics (STAT 3320), Introduction to Statistical Analysis (STAT 5428/6428), Mathematical and Computational Modeling (CPS 5310/6310), Introduction to Statistical Programming (STAT 5329/6329), Multivariate methods for high-dimensional data (DS6388), Linear models for data science (DS 6384), Nonparametric Statistics (STAT 6390), Applied Regression analysis (STAT 4385), Mathematical statistics I (STAT 5380/ DS 6380), Multivariate data analysis (STAT 5388/ 6388)

Sep 2016 – Jan 2017
- Mentor for the course Business Analytics using Forecasting Timeseries (BAFT) offered online via Future Learn by Prof. Galit Shmueli.

Teaching (continued)

Sep 2014 – Jan 2015 — Teaching assistant for the courses Business Analytics using Forecasting Timeseries (BAFT) and Business Analytics using Datamining (BADM).

Funding

2022–2026 — **US DOE** (Co-PI: $732,168).
Title: *Developing Evidence-Based Learning Environment for Success in STEM (DEBLES): Increasing the Retention of Minorities and Women.*

2022 — **URI** (PI: Internal grant, $5,000), University of Texas at El Paso.
Title: *Tree-based Bayesian methods for optimal treatment regimes.*

Talks

2026 — *Automatic variable selection for longitudinal quantile regression*, Poster, Conference of Texas Statisticians, Austin, March

2025 — *Robust variable selection in high dimensional nonparametric additive model*, Contributed, Conference of Texas Statisticians, Houston, March

2024 — *Inverse regression for spatially distributed functional data*, Invited, ECOSTA, June (Online)

2023 — *Estimation of optimal treatment regime in high dimensional single index quantile regression*, Invited, Colloquium, Department of Mathematics and Statistics at Texas Tech University, Texas, October (Online)
Estimation of optimal treatment regime in high dimensional single index quantile regression, Contributed, INFORMS Annual Meetings, Phoenix, Arizona, October
Flexible models for extreme value distributions, Contributed, International Indian Statistical Association, Colorado School of Mines, Colarado, June
Inverse regression for spatially distributed functional data, Colloquium, Department of Mathematical Sciences at University of Texas at El Paso, Texas, January

2022 — *A new kernel regression approach for robustified L_2 boosting*, Invited for Contributed talk, AMS Fall Central Sectional Meetings, University of Texas at El Paso, El Paso, Texas, September

2020 — *Functional regression with the COM-Poisson distribution: a study of modeling COVID19*, Invited for Contributed talk, AMS Fall Central Sectional Meetings, University of Texas at El Paso, El Paso, Texas, September

2018 — *Smooth backfitting for additive models in longitudinal data*, Contributed, JSM at Vancouver, Canada, August
Tree-based Estimation of COM Poisson regression, Invited, The 27th South Taiwan Statistics Conference, Taiwan (R.O.C), June

2017 — *Tree-based Estimation of COM Poisson regression*, Contributed, INFORMS Annual Meeting, Houston, Texas, November

Talks (continued)

2016 — *Efficient Estimation of COM Poisson regression*, Contributed, INFORMS Annual Meeting, Nashville, Tennessee, November

Awards and Achievements

2018 — **Ching-Zong Wei Statistics Ph.D. dissertation award**, 2nd rank by The Chinese Institute of Probability and Statistics (CIPS). This is an annual award given to the students whose research is related to Statistics and obtained their PhDs in Taiwan

2014– 2017 — **NTHU-A Scholarship**. It is given to the international students at the National Tsing Hua University, Hsinchu, Taiwan (R.O.C). The scholarship will be renewed each year based on the academic and research performance from the previous year.

2004– 2008 — **Foundation for Academic Excellence and Access (FAEA) scholarship**. One among the 150 students that were selected for the award from all over India for the year 2004.

2002– 2003 — Secured 34th rank in the Andhra Pradesh State Mathematics Olympiad for the year 2002.

Student Advising

Thesis — Bashir Habeeb A (2023); Jeremiah Domfeh (2023); Kwabena G Duodu (2023); Justice G Opoku (2026, TBD); Edward Laryea (2026, TBD);

Project — Zaira Luzhan (2022); Ashley Obeng (2024);

Service

Reviewer — Annals of the Institute of Statistical Mathematics, Statistical Modeling, Journal of Time Series Analysis, Communications in Statistics – Theory & Methods, Communications in Statistics – Simulation & Computation, Applied Stochastic Models in Business and Industry, Computational Statistics, Statistical papers, Test, Statistics and Computing, Statistica, Journal of Korean Statistical Society, Scientific reports, Journal of Multivariate Analysis, Computational statistics and data analysis

Skills

Languages — R, Python, Julia, Matlab, C, Fortran

Other Professional Experience

June 2016 – Sept 2016 — **Summer Intern** at Institute of Statistical Science, Academia Sinica, Taiwan (R.O.C)

Aug 2010 – 2014 — **Research Associate** at Indian School of Business, Hyderabad, India.

Feb 2010 – July 2010 — **Analyst** at W.N.S Global Services ltd., Bangalore, India

Other Professional Experience (continued)

May 2008 – Jan 2010 **Research Officer** at Prithvi Information Solutions, Hyderabad, India
